

What Families Can Expect

- Clear grade-level learning goals and a strong foundation in core academic subjects.
- Teacher-guided instruction supported by printed resources, video lessons, and interactive practice.
- Flexible pacing and targeted support that help students strengthen skills and move forward with confidence.
- Faith, character, creativity, and college-and-career preparation woven into the student experience.

One program. Two strong resources.

Abeka supports structured, Christian instruction. Acellus adds engaging online learning, progress data, and flexible reinforcement.

Our Curriculum Promise

We believe students thrive when strong academics, caring instruction, Christian values, and modern learning tools work together.

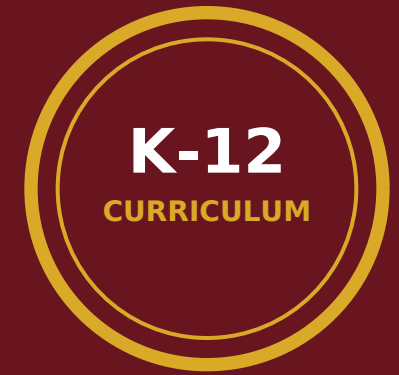

Designed to support:

- Academic growth and skill mastery
- Individual learning needs
- Creativity and critical thinking
- Character, confidence, and purpose
- Preparation for college, career, and life

A NEW DAY PREPARATORY ACADEMY SCHOOL OF ARTS

ABEKA + ACELLUS

A blended approach for every stage
of the K-12 learning journey

A PLACE WHERE EVERY STUDENT BELONGS

#GoPanthers

Build the Foundation

Young learners develop essential skills through structured teaching, memorable practice, and engaging digital lessons.

Core learning includes

- Phonics, reading, spelling, grammar, and writing
- Mathematics and problem solving
- Science and social studies
- Bible, character development, and fine arts
- Introductory technology, coding, and music options

How the blend helps

Abeka provides systematic, teacher-led skill building. Acellus supports review and mastery through interactive, self-paced video lessons.

Strengthen the Core

Middle school students deepen their academic knowledge while building independence, organization, and responsible study habits.

Core learning includes

- English language arts and literature
- Mathematics, including pre-algebra pathways
- Life, earth, and physical science concepts
- World and U.S. history, geography, and civics
- Bible, health, physical education, arts, and electives

How the blend helps

Direct instruction and print-rich practice are paired with digital feedback, targeted support, and opportunities to revisit challenging concepts.

Prepare for the Future

High school students follow a focused course of study designed to support graduation, college readiness, career exploration, and lifelong learning.

Course opportunities include

- English I-IV and advanced language arts options
- Algebra, geometry, advanced mathematics, and statistics
- Biology, chemistry, physics, and environmental science
- U.S. and world history, government, economics, and personal finance
- Fine arts, world languages, technology, and career-focused electives

How the blend helps

Students receive rigorous academic instruction along with flexible online learning, progress monitoring, and room for advanced or career-oriented pathways.
